

**SURGING
BULLS**

Our Origin

The Surging Bulls have been roaming and stampeding for over 20 centuries now. Over that time period the bulls have grown not just in size of the herd, but have elevated to a new level of existence.

Like their Ancestors before them the Surging Bulls are symbols of not only strength, courage and hope, but of speed and camaraderie as well. The bulls are on an unstoppable path, with no sign of exhaustion and with the hearts of their ancestors, mission completion is inevitable.

Surging towards a new era of growth, we shall go forth, we shall bull, we shall fight and we shall prosper. We are the Surging Bulls and together we are always stronger
